WHITE CARD

CPCCWHS1001—Prepare to work safely in the construction industry

ABOUT WHITE CARD TRAINING

Work Health and Safety (WHS) induction training is a requirement for persons wanting to work in the construction industry or go onto a construction site. Our White Card Construction Induction course covers the basic WHS knowledge required to gain entry to any construction site within Australia.

Students will gain the knowledge and ability to demonstrate an understanding of WHS legislative requirements, basic principles of risk management, prevention of injury and illness in the construction industry.

COURSE CONTENT

- White Card Construction Induction training requirements
- WHS legislative requirements
- Construction hazards
- Site Safety Signs
- Hazard control measures
- WHS communication and reporting processes
- WHS incident response procedures
- First Aid and Fire response processes

COURSE DELIVERY

Excel Training's White Card delivery is face-to-face and is delivered either in house or can be arranged to be delivered on site with a specific employer on arrangement. Delivery and Assessment of this course consists of:

- 6 hours, face-to-face delivery
- Theory based assessment methods

As per Safe Work SA requirements no interpreters are allowed to provide assistance.

If LLN is a concern, verbal assessment is allowed, providing that basic OHS forms can be completed.

COURSE COST

\$110 per person (costs include issuance of White Card and all learning resources)

PHOTO IDENTIFICATION

All participants of the course must provide photo identification prior to commencing training.

Photos will be taken by Excel Training's delivery and assessment personnel during the course for placement on participant's White Card.
