Certificate III in Warehousing Operations

WHY EXCEL TRAINING

Excel Training's business model is to design and deliver courses based on employer requirements and specifications.

Courses are developed in partnership with employers to ensure qualifications are built and implemented to meet industry, employer and employee needs. This means, no courses are developed the same and employers do not receive a generic program.

Excel Training's range of qualifications have been endorsed

COURSE CONTENT

The Certificate III in Warehousing Operations requires your employees to complete 19 units of competencies to achieve a full certificate. Skill and knowledge outcomes include:

- Chain of responsibility, WHS and orientation
- Stock control and processing
- Quality procedures
- General warehousing tasks

This qualification involves a defined range of skilled operations, usually within a range of broader related activities involving known routines, methods and procedures, with some discretion and judgement in selecting equipment, services or contingency measures and within known time constraints.

TIME IS MONEY

Excel Training works with employers and employees to customise the most relevant qualification.

We offer assessment options including Recognition of Prior Learning (RPL), work based evidence collection (portfolio and workplace documents), and observation assessments to assist employees in providing the relevant evidence based on skill and knowledge competencies developed in the actual workplace.

Individualised delivery and assessment strategies are developed based on actual needs and requirements of both employees and employers to ensure cost effectiveness and time efficiency is achieved.
